

Integrated Fire Protection Solutions

Our Solution

Low Pressure  
Water Mist Systems

0845 600 8330

[www.ultrasurefire.co.uk](http://www.ultrasurefire.co.uk)

Ultra Surefire have built an enviable reputation based on innovation, research and development.

From advice and survey through to design and project management, Ultra Surefire will be with you every step of the way.

Our quality and approvals include:

- ISO 9001
- LPS 1048
- FIRAS
- SafeContractor
- Constructionline
- BAFSA members

Every one of our team are chosen for their experience and knowledge in the fire industry, making it a winning combination. We can support you with:-

- Water Mist Systems
- Sprinkler Systems
- Gas Suppression
- Dry Risers
- Ansul Suppression
- Fire Detection Systems

Ultra Surefire Limited  
Unit 4, Barnes Wallis Court,  
Wellington Road,  
High Wycombe, Buckinghamshire,

Fast and focused fire suppression technique, water mist systems are gentler than sprinklers, so less traumatic to people in the proximity of the fire. Water mist systems are better at minimising both water and smoke damage, as they use up to 40% less water than sprinklers. Small pipework and tank sizes aid architects in the design of buildings.

Pioneers in fire technology, our team were the first to test successfully to the new British Standard 8458 for low pressure water mist. Active within industry bodies such as BRE, BSI and European Committees, we rigorously test every fire solution. Systems are designed and installed to British Standards including, Residential, Light Hazard OH1, OH2, Special Risks Bespoke from tests and we are currently developing a system to LPS 1283.

Discreet concealed nozzles are the secret to our success and will remain a firm favourite with architects, consultants and clients. Nozzle specifications are central to the performance of the water mist system to ensure correct coverage and fire protection. Our Ultramist nozzle range are designed and tested to suit every application, so our team can advise you on the correct nozzle for your risk and create detailed design drawings for your application.

LPS 1048: Issue 4  
Cert No. ASC-130

Assessed to ISO 9001  
Cert No. 752
