

Integrated Fire Protection Solutions

Our Solution

Mobile Water Mist
Fire Fighting

0845 600 8330

www.ultrasurefire.co.uk

Ultra Surefire have built an enviable reputation based on innovation, research and development.

From advice and survey through to design and project management, Ultra Surefire will be with you every step of the way.

Our quality and approvals include:

- ISO 9001
- LPS 1048
- FIRAS
- SafeContractor
- Constructionline
- BAFSA members

Every one of our team are chosen for their experience and knowledge in the fire industry, making it a winning combination. We can support you with:-

- Water Mist Systems
- Sprinkler Systems
- Gas Suppression
- Dry Risers
- Ansul Suppression
- Fire Detection Systems

Ultra Surefire Limited
Unit 4, Barnes Wallis Court,
Wellington Road,
High Wycombe, Buckinghamshire,

First response for rapid fire fighting, mobile low pressure water mist technology is flexible, effective and powerful enough to fight fires at a distance, guarding the safety of fire fighters.

Harnessing water mist and CAFS technology in portable formats has improved first response fire fighting around the World. Advanced aerodynamics with flow engineering using liquid and gas mixtures create an enlarged surface area (almost 50 times) when compared to conventional water tender.

Results are rapid cooling due to extensive heat absorption and the resultant steam generated expands 1640 times in volume, inerting the atmosphere around the fire. The combined effect of cooling and blanketing results in effective rapid extinguishing.

A variety of mobile equipment is available depending on your application. Ideal for quick response, mobile trolley units have been used extensively within custodial premises, and backpacks for ideal for fire fighters requiring full mobility. MPM fire fighting systems are specially designed for application on pickups, small trucks or trailers.
