Ultra Surefire have built an enviable reputation based on innovation, research and development.

From advice and survey through to design and project management, Ultra Surefire will be with you every step of the way.

Our quality and approvals include:

- ISO 9001
- LPS 1048
- FIRAS
- SafeContractor
- Constructionline
- BAFSA members

Every one of our team are chosen for their experience and knowledge in the fire industry, making it a winning combination. We can support you with:-

- Water Mist Systems
- Sprinkler Systems
- Gas Suppression
- Dry Risers
- Ansul Suppression
- Fire Detection Systems

Automatic sprinkler systems still remain the most widely used fire protection system today, discharging calculated amounts of water for the risk involved following guidelines expressed in British, European and American Standards.

Activated when a sprinkler head detects heat from a fire, the sprinkler opens to release water directly over the fire. Pipework feeds from the sprinkler heads run to either the mains water or from a storage tank via a pump.

Our comprehensive design and installation service of sprinkler systems means that we can support your project from concept to completion. Both property protection or life safety systems are available, backed up by dedicated water supplies including; wet type, dry type, tail end and pre-action. Ultra Surefire are fully accredited to LPS1048, FIRAS approved and registered to BAFSA (British Automatic Fire Sprinkler Association).

To complement your sprinkler project, our team has a wealth of experience in the design and installation of wet and dry riser systems. Our systems and equipment conform with the requirements of BS 5041 and LPCB, for your peace of mind.

LPS 1048: Issue 4
Cert No. ASC-130

Assessed to ISO 9001
Cert No. 752
